

AI CREATOR BLUEPRINT

How To Build An AI Creator Brand Without Showing Your Face

Right now, AI avatars are selling digital products and generating income online even while their creators sleep.

From June to December 2025, I personally generated over \$440,000 using my AI avatar “Madi” without showing my face, without ads, and without going viral. I’ve also helped thousands of people start making money online using this same system.

Most people want to make money online, but they don’t want to:

- Be judged online
- Film themselves
- Speak to the camera
- Show their face
- Build a personal brand
- Be online 24/7
- Burn out creating content

Now you can:

- Have an online presence without being online
- Create content without filming yourself
- Make sales 24/7
- Build a consistent professional brand
- Maintain your privacy

How To Build AI Avatars That Make Money For You

And now, for the first time ever, I’m publicly revealing my tools and methods.

This system helped me generate \$440,000+ in 6 months with 1 digital product.

This isn’t the future. It’s already happening.

And honestly — you shouldn’t have to do everything yourself.

That’s why AICA was created.

You get all the benefits of being an influencer... without actually being one.

What AI Avatars Allow You To Do

- Show up every single day
- Stay visually consistent
- Test content quickly
- Sell without emotional attachment

From a single photo, you can:

- Generate consistent images
- Create talking videos
- Produce short-form content
- Maintain brand consistency
- Have a system that sells for you

Why AI Avatars Work So Well

People don't buy because of perfection.

They buy because of: Clarity, Consistency, Repetition.

You only need one image.

Most people fail online because they stop showing up. Your avatar never does.

Most people overthink this. You don't need complicated tools or advanced workflows.

One image is enough to build a consistent AI character.

Consistency is built in.

How I Create My AI Avatars

I personally used OpenArt AI to create Madi, and I continue to use it for all of my images and videos.

If you create an OpenArt account using the link below, you'll be able to use the code AICA for 20% off.

AICA community members receive even better discounts that cannot be found anywhere else on the market.

The AICA community has already received over 1 million free credits which equals:

- 28,000 AI images
- 10,000 AI videos
- And free credits are given out every week

Two Ways To Make Money

Option 1: Create your own digital product. This is simple, scalable, and has a high profit margin.

Option 2: Use AICA's product and keep 80% of the profit. You can start immediately without product creation, tech headaches, or marketing from scratch.

The product has already been proven to sell over 6,000 times.

Most Of My Sales Happened While I Was Sleeping

Most of my sales didn't happen while I was working.

They happened while I wasn't online.

Many happened while I was sleeping or even when I wasn't posting.

This isn't passive income. This is automated leverage.

Let's Do The Math

- 1 sale per day = \$4,710 per month
- 3 sales per day = \$14,130 per month
- 5 sales per day = ■■■■

But What Do I Actually Sell?

You don't need 10 products, complicated funnels, or advanced systems.

You only need one digital product.

There are two simple paths: create your own product or promote a proven product.

This Isn't Just Me

Inside AICA, we've helped beginners, busy parents, single moms, introverts, and people with zero experience build real income online using AI avatars.
